VALERI GINO & C.

# THE COMPANY

*Territory on which we operate is mainly provided by province of Florence, Prato and Pisa, but we have customers in all of Tuscany and we realize frequently jobs on all national territory.*

Our company has been in business since 1978 as individual company, born from the division of another company founded in 1967. In 1992, takes the form of general partnership and in 2014 became a limited liability company.

For a long time the main activity was the construction and maintenance of industrial electrical plants. Thanks to the knowledge acquired over the years and all commitment to technological renewal we are currently able to provide complete solutions for every need in the field of electrical systems and automation. The average staff is composed by 26 people, which can be helped, as needed, by some external collaborators.

Our company is enabled according to DM37 / 08 lett. A, B, C and G; is registered at UNAEToscana qualification board since 1995 for categories A, B-BT, B-MT, D (TV) and D (SA)

Our staff is certified IMQ Airvideo, i.e. has qualification required by Certification Scheme as expert for burglar alarm systems and video surveillance, according to EN 16763:2017 standard, CEI 79-3:2012 - Annex K and EN 62676-4:2018

We have been accredited by Schneider Electric as EcoXpert partner to provide and manage energy efficiency solutions. We have also been accredited as Ev-Pro partner for the installation of charging systems for electric vehicles.

## CMVP

Our staff is CMVP certified from AEE Association of Energy Engineers. He's qualified to design and implement a Measurement and Verification Plan of energy performance as provided by International Protocol of Measurement and Verification of Performance IPMVP.
